EAST

EASTERN ACADEMIC
SCHOLARS' TRUST

The Eastern Academic Scholars' Trust

- 65 academic and research libraries from Maine to Florida
- Most are Retention Partners
- Mission: Securing the scholarly record in support of teaching, learning and research
- Ensure access for researchers, students and faculty of member libraries

EAST and Monograph Collection Analysis

- Collection analysis is critical to determining a model for which monograph titles should be retained
- First two EAST cohorts used OCLC GreenGlass® for collection analysis
- EAST retention model focuses on:
 - Retaining at least one copy of unique scholarly monographs published before 2011
 - Retaining multiple copies of frequently used titles
 - Retain one copy of all other scholarly monographs
 - Retain an additional copy of titles published prior to 1900

EAST

EASTERN ACADEMIC
SCHOLARS' TRUST

Options for Collection Analysis

- Collection analysis is a pre-requisite for joining EAST as a monograph retention partner
- EAST wishes to offer a lower cost option for libraries
- In 2018 began to investigate options
- Agreed to work with the Gold Rush Decision Support service offered by the Colorado Alliance of Research Libraries
- Currently completing load of all EAST retention commitments into Gold Rush
